Although our restaurant isn't vegetarian, our kitchens aim to keep non-meat products separate from meat products. We can't, however, guarantee this. If you have any questions please speak to a member of our team. We also take great care to remove the bones and cartilage from our boneless items but there is always a tiny chance of finding one. Please be aware that we do use nuts in our kitchen, there may be traces of nuts in all our products. For Vegan diet please make an enquiry with our team.
